

ETL Fiber Wall Socket / Rosette Box

Description

- Professional-grade Fiber Wall Socket (FWS) designed for FTTH (Fiber to the Home) indoor drop cable termination.
- Compact, sleek, and durable, this enclosure provides clean cable management and secure housing for optical fiber splices and adapters.
- Suitable for residential apartments, offices, and commercial broadband installations.

Features

- SIRIM IP4X Certified: Fully tested and certified under SIRIM standards with IP4X protection against ingress of solid foreign objects (wires/small tools >1mm).
- Flame-Retardant ABS Material: High-quality, durable white housing that matches standard electrical faceplates.
- Compact & Aesthetic Design: Surface-mounted, clean profile for neat indoor cable routing.
- Bend Radius Protection: Internal routing guides ensure optimal fiber protection and prevent signal loss.
- Multi-Adapter Compatibility: Standardized ports designed for SC Simplex or LC Duplex fiber adapters.
- Easy Installation: Screw-mount design with dust-proof cover for long-term connector protection.

Specification

Parameter	ETL-FWS-1C	ETL-FWS-4C
Max Capacity	2 Port	4 Port
Material	ABS Plastic (White)	ABS Plastic (White)
Mounting Type	Wall-mounted	Wall-mounted
Dimension (Appx)	86mm (W) x 86mm (H) x 23mm (D)	150mm (W) x 100mm (H) x 30mm (D)
Application	Single-user FTTH subscriber outlets, indoor ONU connections	Multi-room fiber distribution, small office networks, high-density drop terminations
