

Aluminium (AL) Cables

#D-Shape

Nominal Area (mm²)	Number / Wire Diameter (No./mm)	Thickness of Insulation (mm)
16	7/1.70	1.00
25	7/2.14	1.20

CABLE CONSTRUCTION		
Conductor	Plain Aluminium Conductor, Class 2, Stranded Circular or Compacted	
Voltage	600/1000V	
Insulation	Polyvinyl Chloride (PVC) compound, PVC/A	
Core Identification	Two Cores Three Cores Four Cores	Red and Black Red, Yellow and Blue Red, Yellow, Blue and Black
Assembly	2, 3 or 4 Cores	Stranded together and the interstices may be filled with the sheathing compound or textile. A non-hygroscopic binder tape may be applied over the laid-up cores.
Bedding	Polyvinyl Chloride (PVC) compound,	
Bedding Colour	Black	
Armour	N/A	
Outer Sheath	Polyvinyl Chloride (PVC) compound,	
Outer Sheath Colour	Black
